

## Video Title: MSc Ergonomics – Alison Sandeman

My name's Alison Sandeman. I live in Aylesbury in Buckinghamshire and I studied an MSc in Ergonomics.

What advice would you give to someone looking to study?

If I was going to give anybody any advice, it's do it. Don't think about it just do it. You only live once and if you really want to develop yourself this is probably one of the best ways that you can actually earn a living, you can have a job and you can do this as a side line to it. And the people that you meet and the things that you learn are absolutely incredible. And it opens up a whole world of learning to you so do it.
