

## Video Title: Nursing Studies BSc (Hons) Top-Up – Andrea Roth

Today I'm really excited to be here to meet finally the people who supported me so greatly through these 3 years and to obtain my degree. It feels really great. I'm a bit nervous about it to meet the people who are behind the telephone but it feels also familiar to come here and it's really welcoming. I work as a nurse and as a trainer and I think I can use the skills which I obtained here and I'm really of that to learn more and it is successful to have an online degree here I think.

I'm passionate about learning and I think online learning is the future. I have now a university degree I'm really proud of and I can develop my degree further I hopefully will join you with a Masters degree in September.
